

The Omega Infrared Emitter

Infrared emitters can be individually formed to match the requirements of the finishing process. So heat is targeted to where it is needed, e.g.

- Joining, welding or riveting of plastic parts
- Forming or bending of tubes
- Drawing of glass or plastic fibers

Technical Data

- Short-wave
- Quartz glass, 8 mm diameter
- mounting equipment on request
- for horizontal operation

For any further application – just contact us!

A gold reflector directs IR radiation to the product.

Choose the reflector type according to the application out of three standard types, others on request!
