

Infrared Tube Ovens

Heraeus Noblelight developed Infrared Tube Ovens especially for the homogeneous heating of wires, ropes or fibers. Due to product and process the ovens are equipped with infrared emitters with the exact fitting power, voltage and length.

Features

- noise and contact free
- exact temperature easy adjustable
- high efficiency
- high power densities
- fast flowing processes
- homogeneous heating

Applications

- Drying of ropes
- Drying of paints or printings
- Curing of plastics coatings on wires
- Annealing of tubes
- Heating of glass fibers
- Heating of shrinking tubes
- Fixing of coatings on tubes

For any further application – just contact us!
